# DUO Multi Factor Authentication Setup

## 1. Purpose

---

The purpose of this document is to introduce the DUO two-factor authentication app that will add an extra layer of security for users logging into our network services – both locally and remotely. This common industry-standard method of MFA (or any other method similar in technology) is now a pre-requisite of the carrier’s cyber security insurance AoA is covered by

## 2. Scope

---

These procedures pertain to all AoA-based users at the Chancery who access the organization’s network services

## 3. Prerequisites

---

Best (Recommended) Method: Have the DUO app installed on your mobile phone.  
 Good Method: Provide the DUO service your mobile phone number  
 Acceptable Method (not Recommended): Provide the DUO service a land-line number (i.e. AoA office number) where the service can send an access code. Note: In this situation, you would need to be able to have access to the land line to login.

## 4. Responsibilities

---

It will be the responsibility of AoA’s Department of Information Technology to keep these directions updated. Should these procedures require an update, a modification, a correction, etc. – the IT department should be notified by way of the helpdesk ticketing system found at: <http://help.archatl.com/>

## 5. Procedure

---

*(Starts on the following page)*

		SOP #:	DUOInstall-001
		Revision #:	(Initial)

- Upon receiving an e-mail similar to the illustration shown below, use your smartphone to access the message and click on the link shown below ...  
***Note: As this e-mail is being sent directly from the DUO Security Service site, it will be delivered with the external e-mail warning banner. Nonetheless, it is legitimate!***

**This is an automated email from Duo Security.**

Your organization invites you to set up a user account for Duo. You will find instructions from your Duo administrator below. If you have questions, please reach out to your organization's IT or help desk team.

Hello,

Your organization is now rolling out Duo Security, a friendly and secure way for you to log into your applications. Your administrator has invited you to set up your account for Duo so you can start logging in.

To begin, click this link to enroll a phone, tablet, or other device:

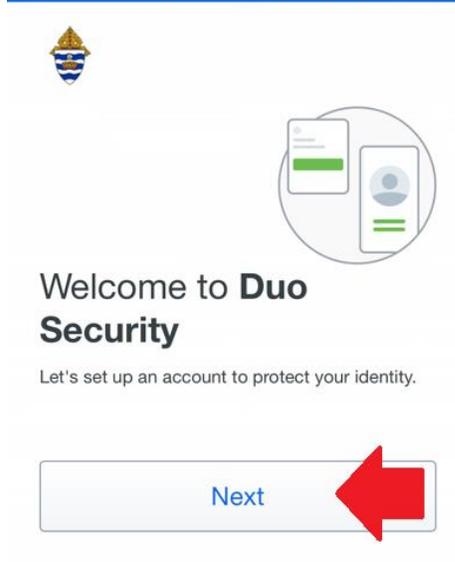

Duo Security is a two-factor authentication service that strives to be easy to use and secure. To learn more about Duo authentication, visit the guide here:

<https://guide.duo.com/enrollment>

### What can you do?

The best way to protect your identity is with two-step verification using your phone or another device.

### Select an option

You'll use this to log in with Duo. You can add another option later.

- 
**Duo Mobile** Recommended
Get a notification or code on your device
>

- 
**Security key**
Use a security key
>
- 
**Phone number**
Get a text message or phone call
>

**Note:** Please see section 3 of these directions (Page 1). We **HIGHLY** recommend that the Duo Mobile option is chosen from the above screen.
